

ACTIVE LAWN WEEDKILLER

TO AVOID RISKS TO MAN AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE.

contains 3 ingredients which are absorbed by the weed leaves and is effective against a range of established and young broad-leaved weeds freeing the lawn grass from competition allowing the grass to re-grow into the spaces previously taken up by the weeds. It will control a range of broad-leaved lawn weeds including Daisy, Plantain, Common mouse-ear and White Clover.

INSTRUCTIONS FOR USE

When to Use:

Spraying may be carried out any time during the growing season providing the weeds are allowed to grow between mowings. A second application may be required (normally 4-6 weeks later) to control particularly heavy infestations or difficult to control weeds. For best results weeds should be treated when in full leaf and actively growing. Do not apply to grass suffering from drought, if it is frosty or when rain is expected. Weed control will be reduced when applied to very dry lawns.

Rates of Application:

Add 50 mls to 5 litres (1 gallon) of water in a watering can and stir until evenly mixed. The required quantity can be measured by loosening the cap and gently squeezing the bottle until the required quantity is present in the measuring bulb. Open cap and pour contents into the watering can. Apply evenly over 55m² (66 square yards). Always wash out watering can thoroughly after use. If possible keep a separate watering can for weedkillers.

Restrictions:

Avoid mowing for 2-3 days before or after application to allow the treatment to be taken up by the weeds. The first four mowings of treated grass must be composted for a minimum of 6 months before use as a mulch. Avoid contact with broad-leaved plants outside the lawn area being treated as damage will occur. Do not apply to new sown grass or newly laid turf for six months after establishment. Do not spray on windy days to avoid drift.

SAFETY INSTRUCTIONS

FOR USE ONLY AS A HOME GARDEN WEEDKILLER.

PROTECTION DURING/IN USE

KEEP OFF SKIN. WASH HANDS AND EXPOSED SKIN AFTER USE.

APPLY ONLY BY WATERING CAN.

OTHER GENERAL PROTECTION

KEEP AWAY FROM CHILDREN AND PETS.

ENVIRONMENTAL PROTECTION

HARMFUL TO FISH OR OTHER AQUATIC LIFE. DO NOT CONTAMINATE PONDS OR STREAMS.

DO NOT EMPTY INTO DRAINS.

STORAGE AND DISPOSAL

KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed in a safe place. DISPOSE OF UNUSED PRODUCT IN IT'S CONTAINER at a household waste site (civic amenity site). Contact your local council (local authority) for details. DISPOSE OF EMPTY CONTAINER IN THE DUSTBIN.
