

# Ballistic™

The Complete Ballwasher Additive

- Provides a perfect clean finish
- Helps protect against corrosion and prolong the life of your ballwasher
- Contains harmless antifreeze to protect ballwasher against winter freezing
- Concentrated Ballistic will not freeze in temperatures as low as -15°C
- Extremely safe to use

Ballistic is an extremely safe ballwasher detergent and anti freeze. Ballistic contains a corrosion inhibitor, which prolongs the life of your ballwashers. Ballistic will also guard against winter freezing, in temperatures as low as -15°C

#### Directions For Use:

Determine the volume of the solution required to fill the ballwasher, then use the appropriate dilution rate (see below). Mix the solution and add to the ballwasher.

#### Spring & summer:

1 part Ballistic to 5 parts water.

#### Winter conditions:

As the temperatures drop, the concentration of Ballistic has to be increased to guard against freezing.

Down to -5°C 2 parts Ballistic 3 parts water  
Down to -10°C 1 parts Ballistic 1 parts water  
Down to -15°C use undiluted

#### Caution:

In accordance with COSHH assessment when handling or using chemicals. Wash hands after use. Store in original container. Keep out of the reach of children.
