

DRIFTLESS

The control of substances Hazardous to Health (COSHH) Regulations may apply to the use of this product at work.

Contains a complex polyelectrolyte.
A unique drift control additive for pesticides.

RECOMMENDATIONS FOR USE

DRIFTLESS is very simple to use – just add it to existing spray programmers
DRIFTLESS should be thoroughly mixed with water and thoroughly dispersed
BEFORE addition of pesticide to the spray tank.

Use **DRIFTLESS** at a rate of 0.2% by volume of spray solution for flat fan nozzles.

Use **DRIFTLESS** at a rate of 0.1% by volume of spray solution for cone nozzles.
Most current agrochemicals are compatible with Anti Drift.

RATE OF USE 1-2 litres /1000 litre water (0.1%-0.2% spray solution)

APPLICATION

DRIFTLESS can be applied through conventional ground crop sprayers. Ensure that the sprayer is calibrated, clean and all working parts are in good condition. Check that all hoses are tight and undamaged and that the nozzles are all unworn and matched.

MIXING

Half fill the sprayer tank with water. Add the **DRIFTLESS** to the sprayer tank. Agitate while filling. After mixing the **DRIFTLESS** add the required amount of pesticide, agitate thoroughly and fill the remaining half of the tank with water.

STORAGE

DRIFTLESS will not freeze under normal conditions. It should however be kept away from frost and low temperatures, especially below freezing, will adversely affect the quality of **DRIFTLESS**.

STATUTORY CONDITIONS RELATING TO USE

FOR USE ONLY AS AN AGRICULTURAL/HORTICULTURAL DRIFT CONTROL ADDITIVE.

Engineering control of exposure must be used where reasonably practicable in addition to the following personal protective equipment.

Do not take by mouth

In case of eye or skin contact, flush with plenty of water and seek medical attention if irritation persists.

WEAR SUITABLE PROTECTIVE GLOVES AND FACE PROTECTION (FACE SHIELD) when handling the concentrate.

However, engineering controls may replace personal protective equipment if a COSHH assessment shows they provide an equal or higher standard of protection.

To avoid risks to man and the environment comply with instructions for use.

SAFETY DATA SHEETS AVAILABLE ON REQUEST FOR PROFESSIONAL USERS.

SAFETY PRECAUTIONS

Operator Protection

WASH HANDS AND EXPOSED SKIN before meals and after work
WHEN USING DO NOT EAT, DRINK OR SMOKE

Environmental Protection

DO NOT CONTAMINATE SURFACE WATERS OR DITCHES WITH CHEMICAL OR USED CONTAINER.

Storage and Disposal

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place.

DO NOT RE-USE THE CONTAINER for any purpose

WASH OUT CONTAINER THOROUGHLY, and dispose of safely

CONDITIONS OF SALE

Our products are high grade and we believe them suitable for use as directed, but as we cannot control their mixing, use or weather conditions during and after application, no condition or warranty is made as to their quality or fitness and no responsibility will be accepted for damage or injury arising either directly from their storage, handling, application or use. No liability shall be accepted for any loss or damage caused due to any person failing to use the product in accordance with the instructions for use.
