

Headland Foam-free

An agricultural / horticultural spray de-foamer

Contains 50 g/l dimethyl polysiloxane

Description: A highly effective silicone-based de-foamer for elimination of spray-tank foaming.

Crops: Any

Pack size: 1 litre (trigger pack)

Packs/pallet: 50 x 12 x 1 litre

Introduction: Headland Foam-free is a silicone-based anti-foaming agent which can be used in any agricultural spraying situation where effective elimination of existing foam is required, or to prevent formation of foam if foaming is anticipated.

Directions for

Use: Headland Foam-free should be added to the spray tank while filling to prevent the build-up of foam. Use between 150 and 300 ml of product per 1000 litres of water. A typical 1500 litre tank will need at least 225 ml of product (i.e. 8 fl. ozs. per 330 gallons of water). Shake the container thoroughly before use.

Storage: Keep dry and cool in a suitable pesticide store. Protect from frost.

Safety

Precautions: WASH OUT CONTAINER THOROUGHLY empty washings into spray tank and dispose of safely
