

# Indicator Blue™

The Spray Pattern Dye

Indicator Blue spray pattern dye is non-staining and helps to eliminate blocked nozzles, skipping or overlapping of treated areas and also helps to indicate drift. Indicator Blue spray pattern dye will last for 1-2 days and will breakdown in rainfall or sunlight.

**Directions For Use:**

**Tractor mounted boom sprayers:** Use 250ml per 100 lts of spray solution.

**Knapsack/walkover sprayers:** Use 25ml per 10 lts of spray solution.

**Temporary greens:** Mix 125 ml in 50 lts of water and spray over areas required. Add Indicator Blue spray pattern dye at higher or lower rates than those specified, dependent upon the intensity of colour required.

**Caution:**

Although this product is non-hazardous, store in the original container in a dry place, do not allow to freeze. Keep out of reach of children. Do not take internally. Keep containers tightly closed.
