

Seaspray™

Natural Seaweed Extract

Natural

- Highly concentrated seaweed extract for use on turf
- Provides essential plant hormones and micronutrients
- Enhances turf vigour and stress tolerance
- Improves seedling establishment

Seaspray Natural is an organic seaweed based soil conditioner that is specifically designed for use on turf. Seaspray Natural should be applied every six weeks to help improve seed establishment, seedling germination and promote a dense hardwearing turf that is more tolerant to stress conditions such as drought and high traffic. Seaspray Natural will also improve the soil structure and provide essential plant hormones and micronutrients.

Directions For Use:

Seaspray Natural should be applied at the rate of 10 lts mixed in a minimum of 300 lts of water per hectare. (0.5 lts per 500 m² in a minimum of 15 lts of water).

Caution:

In accordance with COSHH assessment when handling or using chemicals. Wash hands after use. Store in original container. Keep out of the reach of children.
