

Seaspray™

Seaweed Extract with Added Nitrogen

Plus

- Added benefit of 25% nitrogen for rapid greenup
- High quality seaweed extract specially formulated for use on turf
- Improves turf presentation prior to tournaments
- Provides essential nutrients for soil micro organisms
- Regular application will improve the nutrient and water holding capacity of the plant

Seaspray Plus is an organic seaweed based soil conditioner that is specifically designed for use on turf. Seaspray Plus has the added advantage of 25% nitrogen to improve the presentation of turf during times of rapid growth and prior to tournaments. Seaspray Plus provides turf with essential hormones and micro nutrients.

Directions For Use:

Seaspray Plus should be applied at the rate of 20 lts mixed in a minimum of 300 lts of water per hectare. (1 lt per 500 m² in a minimum of 15 lts of water). For optimum results apply Seaspray Plus every 4 - 6 weeks throughout the growing season.

Caution:

In accordance with COSHH assessment when handling or using chemicals. Wash hands after use. Store in original container. Keep out of the reach of children.
