

# amvista

## RESISTOR

Amvista Resistor is a combined plant nutrient and biostimulant, containing copper, zinc and manganese, which strengthens and improves plants and their response to stress inducing conditions. Typically used on box hedging (buxus), shrubs, flowers and vegetables.

### Directions for use

- \* Dissolve 250g sachet in 25 litres water to cover 1000m<sup>2</sup>
- \* Apply a fine-medium spray quality and thoroughly coat plant foliage
- \* Spray to the point of run-off so leaves are coated but not dripping
- \* Repeat at 7-14 day intervals

**Wash hands after use, keep out of reach of children**

### Application Rate

Mix 250g in 25 L water to cover 1,000 m<sup>2</sup>
