# NATURAL FERTILISER 5-2-5 PLUS SEAWEED EXTRACT

- **Maxicrop Natural Fertiliser is made from plant extracts and seaweed.** No animal products are used.
- **Our seaweed stimulates beneficial soil microbes, which results in an improved root system to take up more soil nutrients and water.** Seaweed also helps to keep leaves greener, with more chlorophyll, to improve the use of sunlight energy for carbohydrate production.
- **Together with the balanced natural fertiliser from plant extracts, this results in strong, healthy growth, with ALL types of crops and plants.** For professional use.

**APPROVED FOR ORGANIC GROWING**

## NATURAL FERTILISER

5-2-5

### COMPOSITION

#### COMPOUND FLUID FERTILISER (w/w)

Total Nitrogen (N) 5% - Phosphorus Pentoxide ( $P_2O_5$ ) 2% (P=0.8%) - Potassium Oxide ( $K_2O$ ) 5% (K=4.2%)

### DIRECTIONS

**FOLIAR SPRAYER:** Apply at 4-6 litres per ha in 200-600 litres of water/ha. For knapsack sprayers, mix 125 mls per 10 litres of water. Apply at 10-14 day intervals or as required.

**SOIL DRENCH/FERTIGATION:** mix 4.5 ml/litre of water (1:220 dilution). Apply to the root zone at 7-14 day intervals or as required. Can be applied more frequently at lower concentrations.

### WARNINGS

**HANDLING:** Wash hands after use. **STORAGE:** Keep in original container and reseal after use. Store out of direct sunlight, above 0°C and below 30°C. Keep out of reach of children and pets. **MIXING:** Shake before use. Once diluted, use straight away and flush equipment and pipework with water after use. **TANK MIX COMPATIBILITIES:** Due to the wide range of different spray products available, it is impossible to test all combinations and we cannot accept any liability for any loss or damage. If in doubt, carry out a bucket test to check compatibility. Avoid tank mixing with trace elements. Do not apply under adverse weather conditions, including frost, heavy rainfall, drying winds, extreme heat and extreme drought.
