

ProGreen ANNUAL LAWNCARE PROGRAMMES

Each package contains the products you need with fertiliser, weed killers and moss control for approximately 600m² with applications timed in Spring, Summer and Autumn.

If your lawn is smaller than 600m², the products can be re-sealed and stored in a cool, dry place from one year to the next or gifted to friends.

The products included in your package, Gold, Silver or Bronze are listed in the graphic to the right.

A useful calendar outlining the best time of year for each product and including application rates is on the rear of this page.
